EXPERIENCE	CURRENTLY	PLATFORMS	FULL STACK
7 years	Kjuup, Germany	iOS and Android	Node.js, React

01 PROFILE

Senior React Native developer with 7 years of experience shipping iOS and Android apps. Primary mobile engineer on Kjuup, a German team-communication platform, and for five years on Educase, a school platform released as 120+ white-label apps. Own features end to end, from native modules to release automation.

02 EXPERIENCE

Kjuup
Germany · Remote — Oct 2022 – Present

React Native Developer · Primary mobile engineer

Team-communication platform: chat, e-mail, tasks, calendar and video calls on iOS, Android and web. App Store ↗ Google Play ↗

- Own the iOS and Android apps end to end, from architecture and features to App Store and Google Play releases.
- Built the in-app e-mail client across mobile and backend: IMAP accounts, folders, search, threads and a composer.
- Deliver real-time chat and calling: Socket.IO messaging, Jitsi and WebRTC video calls, native call screens, VoIP push.
- Shipped Stripe subscriptions with free trials, saved cards and Apple Pay, plus two-factor sign-in with backup codes.
- Integrated Microsoft Teams, Todoist and device calendars, and work across the stack in Node.js, React and Electron.

Educase India
Hyderabad, India — Nov 2021 – 2026

React Native Developer · Primary mobile engineer

School-management platform for 350+ schools: one React Native codebase released as 120+ white-label apps.

- Owned the React Native app for admins, staff and parents, in 9 languages on Google Play and the App Store.
- Automated multi-brand releases with Fastlane: build, signing, version checks and upload for every school app.
- Built live school-bus tracking with geofencing, plus homework, attendance, fees, diary and gallery modules.
- Rewrote push-notification routing and deep linking across the app.

Artoon Solutions
Surat, India — Nov 2019 – 2021
